## NOTES

### INTRODUCTORY NOTES

This publication presents the latest available statistics at the time of preparation. The data presented are derived from a number of statistical sources which are updated at differing periods of regularity. Hence, the time period or date of the latest available data will differ between individual statistical series.

The statistical local areas (SLAs) presented generally correspond to legal local government areas (LGAs) in non-urban areas, and to suburbs in major urban areas.

SLAs are the smallest type of spatial unit of the Australian Standard Geographical Classification (ASGC) shown in this publication. Where applicable they have been aggregated to LGAs, which have in turn been aggregated to statistical divisions.

### SYMBOLS AND OTHER USAGES

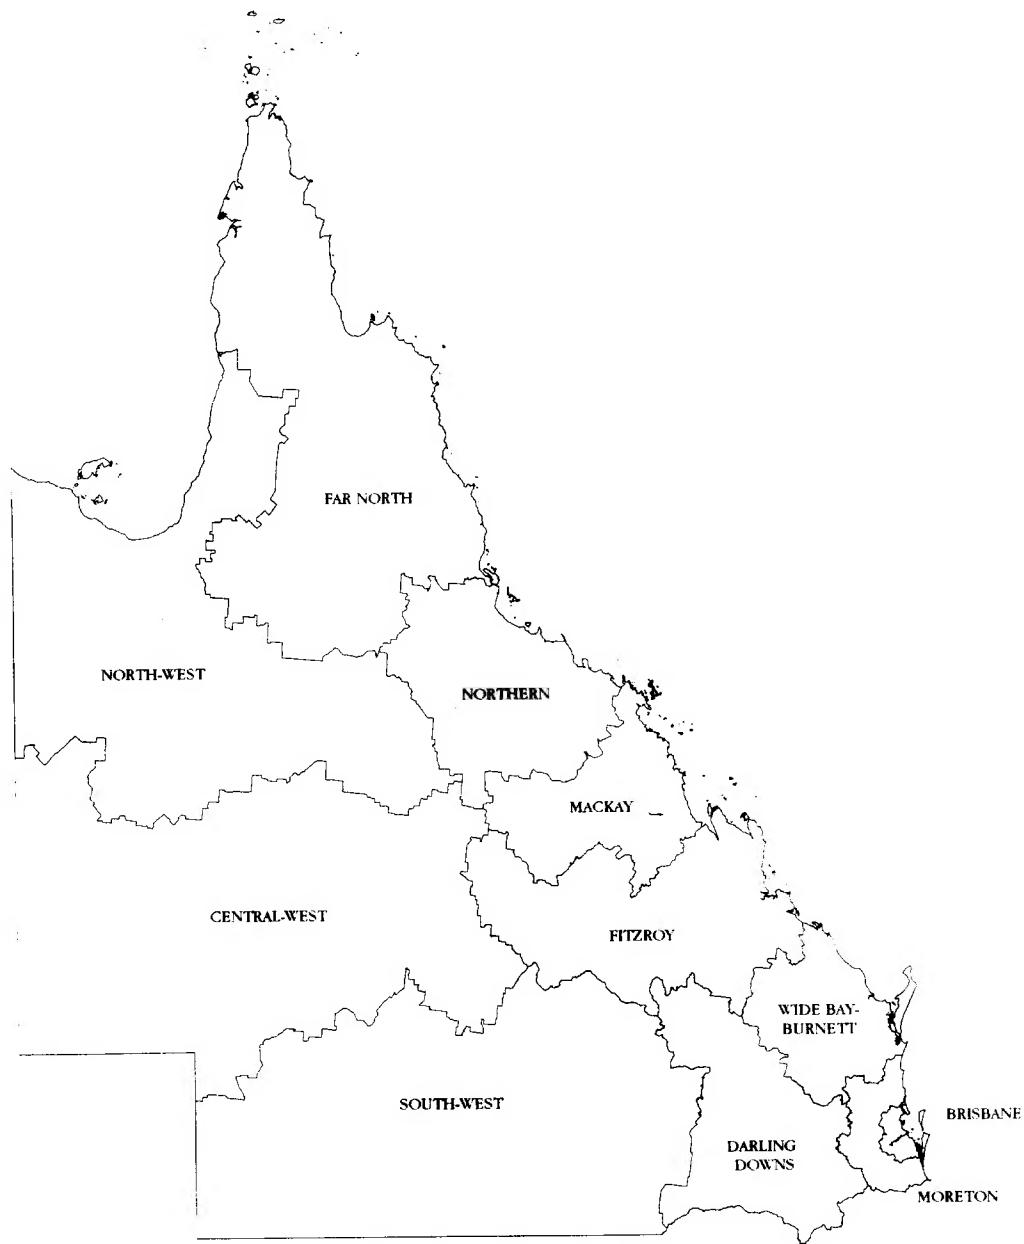

ha	hectares
n.a.	not available
n.p.	not available for publication but included in totals where applicable
...	not applicable
—	nil or rounded to zero

### INQUIRIES

Brian Doyle  
Regional Director, Queensland

## STATISTICAL DIVISIONS

For the purpose of presenting the principal series of official statistics for the State, Queensland is divided into a number of geographical areas. These areas consist, for the most part, of aggregations of local government areas.

The primary division of the State is into 11 Statistical Divisions. These are intended to represent as far as possible 'regions' of the State which are characterised by discernible social and/or economic links between the inhabitants and economic units within them, under the unifying influence of one or more major cities or towns. The boundaries of the divisions have accordingly been delineated on the basic criterion that the degree of economic and/or social content and interaction within each division should be maximised. It should be emphasised that the boundaries of the divisions cannot be regarded as sharp lines of demarcation — they may, of necessity, be positioned within peripheral zones in which the influence of two or more 'focal' cities or towns overlap in varying degrees.

# **Brisbane Statistical Division**

## BRISBANE STATISTICAL DIVISION

Brisbane Statistical Division surrounds Moreton Bay and extends from Caboolture in the north to Ipswich in the west and Ormeau in the south. The Division accounted for only 0.3% of Queensland's total area but 45.5% of the estimated resident population at 30 June 1996.

Brisbane is the financial and administrative centre for Queensland. Brisbane also includes large retail and wholesale trade industries, hospitality and manufacturing industries.

Brisbane Statistical Division contributed 4.7% of the gross value of agricultural commodities produced in Queensland in 1995–96, and is Queensland's largest producer of spring onions, shallots and pineapples and has the largest area of nurseries. The region is also the second largest strawberry producer in Queensland, accounting for 42.2% of production. Also, Brisbane Statistical Division accounted for 57.8% of the number of meat chickens held in Queensland.

# **Moreton Statistical Division**

## MORETON STATISTICAL DIVISION

Moreton Statistical Division surrounds the Brisbane Statistical Division and takes in the Gold Coast and Sunshine Coast. The Moreton Statistical Division accounted for 1.0% of Queensland's total area but 18.5% of the estimated resident population at 30 June 1996.

The Gold Coast region, in the Moreton Statistical Division, is based on the hospitality and retail trade industries and has significant property and business services industries. The Sunshine Coast region also has a significant hospitality industry.

In 1995-96, Moreton Statistical Division accounted for approximately 13.5% of Queensland's agricultural establishments and contributed 8.8% of the gross value of agricultural commodities produced in Queensland. The region is Queensland's largest producer of a wide range of agricultural produce, including potatoes, beetroot, cabbages, carrots, lettuces, mushrooms, white and brown onions, green peas, pumpkins, avocados, strawberries and kiwifruit. Moreton Statistical Division has the largest area of vegetables and cultivated turf in Queensland.

# **Wide Bay-Burnett Statistical Division**

## WIDE BAY-BURNETT STATISTICAL DIVISION

The Wide Bay-Burnett Statistical Division covers 52,392 square kilometres, 3.0% of the total area of Queensland. The Division had an estimated resident population of 224,282 persons at 30 June 1996 which represented 6.7% of the total Queensland population. While Wide Bay-Burnett Statistical Division is centred on Bundaberg, approximately 368 kilometres north of Brisbane, the next most significant population centres are Hervey Bay, Maryborough, Gympie and Kingaroy.

Key industries in the region include agriculture, forestry and fishing. There is a diversity of agricultural activities in the area. In 1995-96, crops and pastures contributed 60.3% of the gross value of agricultural commodities produced in the region. Sugar cane is the major crop, while the region was the largest producer of peanuts in Queensland. Wide Bay-Burnett Statistical Division is also the largest producer of a number of vegetables, including marrow, squashes, zucchinis, snow peas and sweet potatoes. The region has the largest number of citrus fruit trees growing in Queensland. Tourism, particularly in Hervey Bay and on Fraser Island, is also a significant activity.

# **Darling Downs Statistical Division**

## DARLING DOWNS STATISTICAL DIVISION

The Darling Downs Statistical Division is to the west of Moreton Statistical Division, north of the New South Wales border. This Division covers 90,245 square kilometres, representing 5.2% of the State. The Statistical Division had an estimated resident population of 199,920 persons at 30 June 1996, or 6.0% of the State population.

The Condamine River and its tributaries flow through this rich pastoral and agricultural region which is bounded in the north-east by the Great Dividing Range. Toowoomba City is on the eastern fringe of the Darling Downs Statistical Division and is the hub of commercial and industrial activity and the regional centre for higher education. Other major population centres in this Division are Warwick, Dalby and Stanthorpe.

Agriculture is a key industry in the region, accounting for 22.2% of agricultural establishments in Queensland in 1995-96. The region is Queensland's largest producer of wheat, oats, barley, grain sorghum, maize, millet and panicum, triticale, cotton, asparagus, broccoli, cauliflower, apples, pears, stone fruit and grapes. The value of livestock slaughterings in the region in 1995-96 was the highest in the State. The Division also has the largest number of dairy cattle in Queensland.

# **South-West Statistical Division**

## SOUTH-WEST STATISTICAL DIVISION

The South-West Statistical Division covers 322,936 square kilometres, 18.6% of Queensland's total area. This Division had an estimated resident population at 30 June 1996 of 26,494 persons or just 0.8% of the State's total population. The Division is situated on the South Australian and New South Wales border with the western part being desert receiving less than 150 millimetres of rain per annum. The main population centres are Roma, Charleville, St George and Cunnamulla.

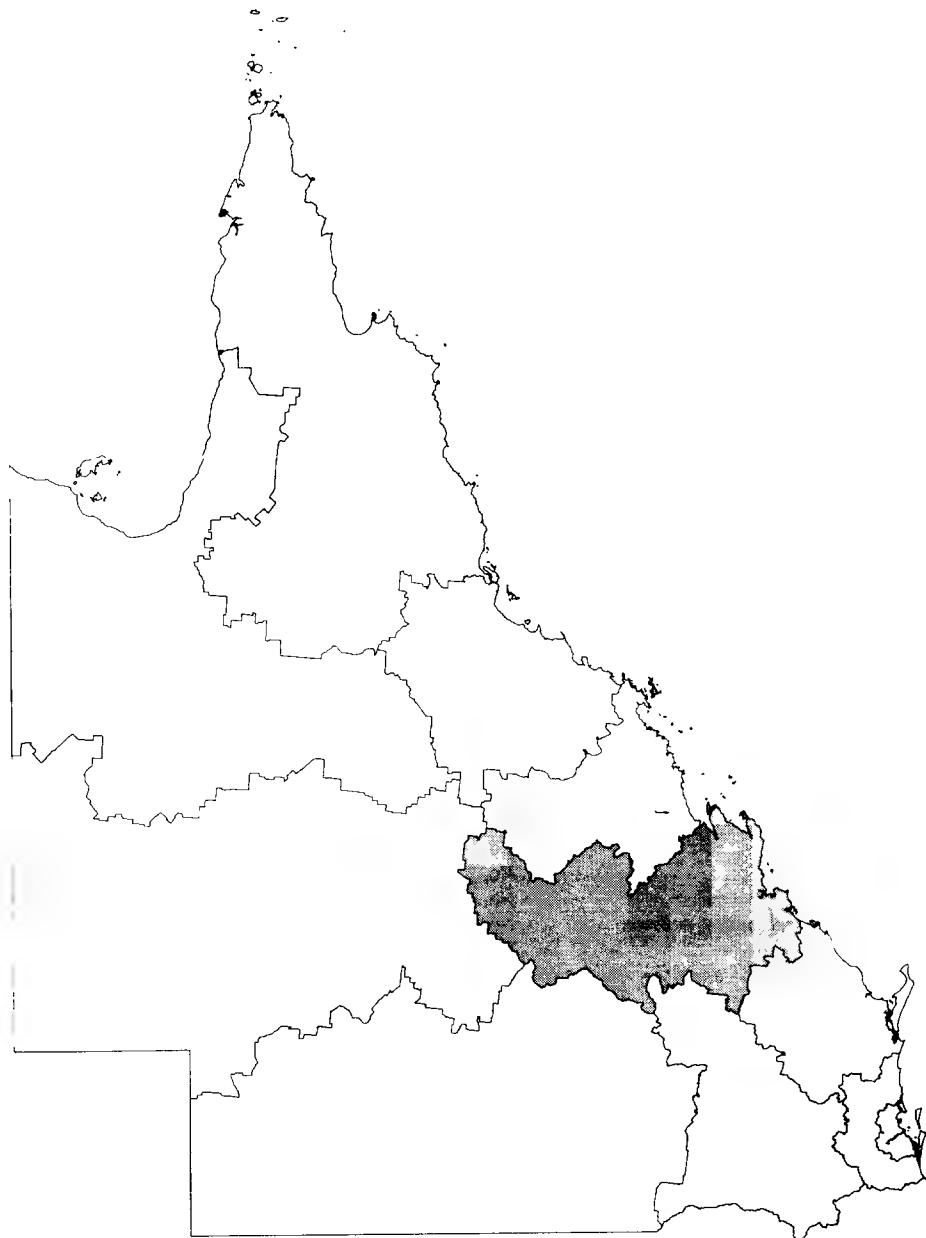

Key activities in the region include wool growing and meat cattle grazing as well as cotton and grain growing. The region recorded the highest number of sheep and lambs in Queensland in 1995-96. Oil and gas production contributes significantly to the region while opal mining is also an important activity in the west of the Division.

# **Fitzroy Statistical Division**

## FITZROY STATISTICAL DIVISION

The Fitzroy Statistical Division covers 123,654 square kilometres (7.1% of Queensland's total area), with an estimated resident population of 178,035 persons at 30 June 1996, representing 5.3% of the Queensland population. The region is bordered to the east by the Great Barrier Reef and offshore islands and to the west by the Carnarvon Ranges.

Rockhampton is the main city in this Division and lies on the Tropic of Capricorn and the Fitzroy River. Other significant centres of population are Gladstone, Blackwater, Emerald and Biloela. Gladstone is one of Queensland's major ports. In addition to being one of the world's largest coal ports, the port also handles significant amounts of bauxite, aluminium, cement and fuel products.

Key industries of the Fitzroy Statistical Division include mining, manufacturing, tourism and agriculture. In 1995-96, livestock slaughterings and livestock products accounted for 56.6% of the gross value of agricultural commodities produced in the region. Fitzroy Statistical Division has the highest number of meat cattle in Queensland. In 1995-96, the Division also recorded the largest planting and production of sunflower in Queensland.

# **Central-West Statistical Division**

## CENTRAL-WEST STATISTICAL DIVISION

The Central-West Statistical Division covers 371,064 square kilometres (21.4% of Queensland's total area). The Division is Queensland's least populated and had an estimated resident population of 12,521 persons at 30 June 1996, representing only 0.4% of Queensland's population. The largest population centre in the area is Longreach, approximately 700 kilometres west of Rockhampton. Blackall, Barcaldine and Winton are other major population centres in the region.

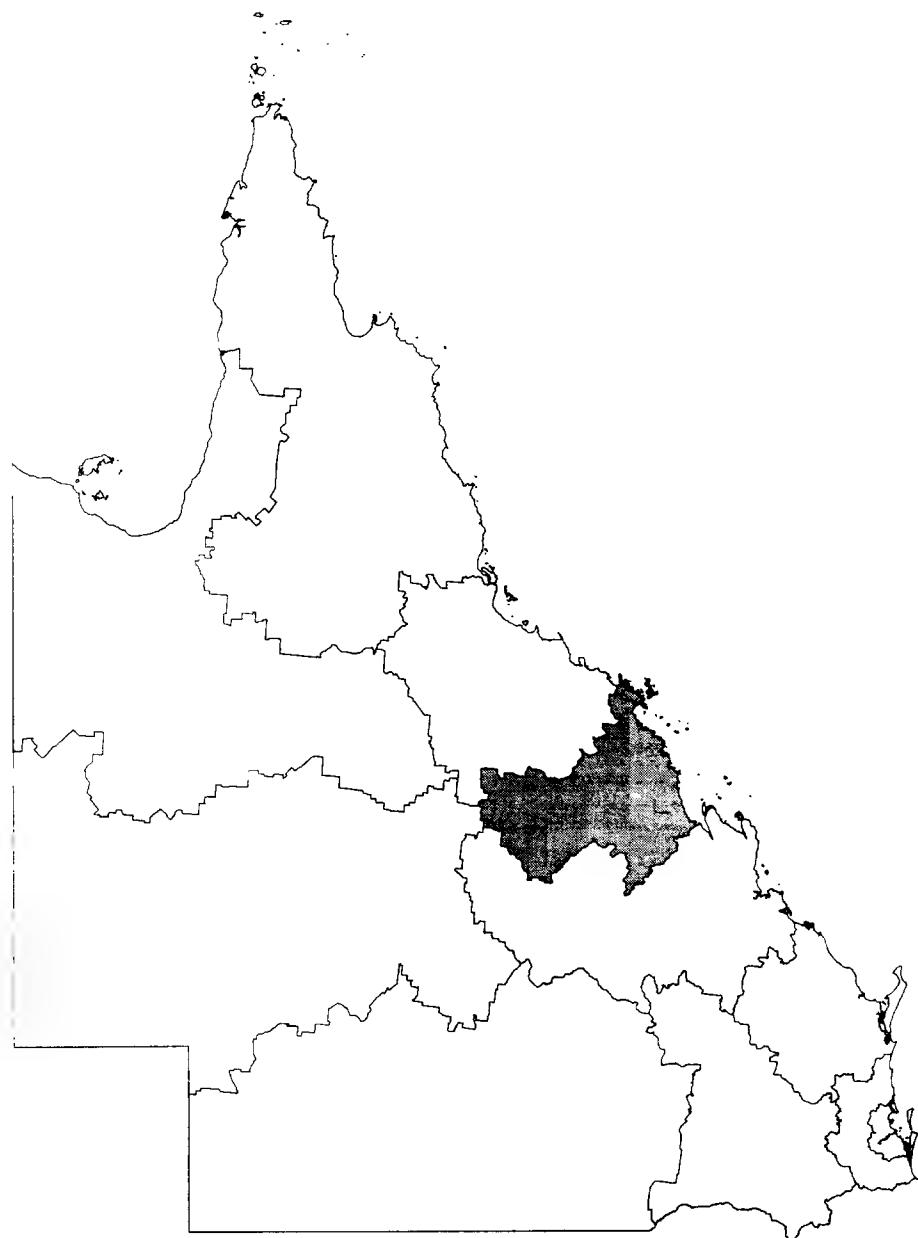

In 1995-96, the Central-West Statistical Division had the largest area of agricultural holdings in Queensland. Key agricultural industries include meat cattle and wool growing.

# **Mackay Statistical Division**

## MACKAY STATISTICAL DIVISION

Mackay Statistical Division covers 69,011 square kilometres (4.0% of total Queensland). The Division had an estimated resident population of 120,324 persons at 30 June 1996, or 3.6% of the Queensland population. The region is bordered to the east by the Great Barrier Reef and offshore islands. The main population centre of the area is Mackay. Other major population centres are Moranbah, Dysart, Sarina, Proserpine and Clermont.

The main economic bases of this Division are sugar cane growing and processing, coal mining, cattle grazing and hospitality. In 1995-96, the region was Queensland's second largest producer of sugar cane cut for crushing.

# **Northern Statistical Division**

## NORTHERN STATISTICAL DIVISION

The Northern Statistical Division covers 101,306 square kilometres (5.8% of total Queensland) and had an estimated resident population of 192,179 at 30 June 1996 (5.8% of Queensland's total population). The Northern Statistical Division is bordered to the east by the Great Barrier Reef and to the west by the Great Dividing Range. The population is centred in Townsville, the hub of commercial and industrial activity in the Division. Townsville is also the regional centre of government administration and higher education and is also important for its port trade. Other significant population centres in the Division are Charters Towers, Ayr, Bowen and Ingham.

Key industries in the region are retail trade, manufacturing, finance and insurance and property and business services. In 1995-96, Northern Statistical Division accounted for approximately 6.6% of Queensland's agricultural establishments and contributed 11.6% of the gross value of agricultural commodities produced in Queensland. The region is Queensland's largest producer of sugar cane cut for crushing. The region is also the largest producer of a number of vegetables and fruits, including cucumbers, sweetcorn, tomatoes and mangoes.

# **Far North Statistical Division**

## FAR NORTH STATISTICAL DIVISION

The Far North Statistical Division covers 267,645 square kilometres, 15.4% of Queensland's total area. The Division had an estimated resident population at 30 June 1996 of 210,766 persons which was 6.3% of the State's population. The Division is bounded to the east by the Great Barrier Reef and partially to the west by the Gulf of Carpentaria, and it extends to Thursday Island in the north.

Cairns is the largest population centre in the area and is also the focus for much of the hospitality industry activity in the area. The other major population centres include Mareeba, Innisfail, Atherton, Port Douglas and Gordonvale.

The region has a wide variety of industries associated with it, dominated by the hospitality industry. Other significant industries include mining and agriculture with the region being the largest fruit growing area in Queensland. The Far North Statistical Division accounted for 94.8% of Queensland's production of bananas and 60.6% of Queensland's production of papaws in 1995-96. Overall, the region accounted for 11.4% of the total gross value of agricultural commodities produced in Queensland.

# **North-West Statistical Division**

## NORTH-WEST STATISTICAL DIVISION

The North-West Statistical Division covers 312,155 square kilometres, 18.0% of total Queensland. The Division had an estimated resident population at 30 June 1996 of 35,947 persons which was 1.1% of the State's population. The Division is bounded by the Northern Territory in the west and the Gulf of Carpentaria to the north. The major population centre is Mt Isa which is home to 62.2% of the Division's population. Other significant population centres are Cloncurry, Hughenden and Normanton.

The key industries in the region are mining, beef cattle grazing and wool growing. Although the region has the smallest number of agricultural establishments (509) in Queensland, it has the largest average size of agricultural establishments (57,500 hectares).

## Explanatory Notes

### DEFINITIONS

- 1** *Legal local government areas* (LGAs), are spatial units which represent the geographical areas of incorporated local government councils, such as cities (C), towns (T) and shires (S).
- 2** *Statistical divisions*, which are groupings of whole or partial LGAs, are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region.
- 3** *Statistical districts* have been defined around selected urban areas to provide comparable statistics over a period of time. These districts, which are intended to contain the anticipated urban spread for at least 20 years, are generally defined as having a population of 25,000 or more and experiencing urban growth beyond the LGA boundaries.
- 4** Data for some series shown in Tables 1 to 12 which are available for statistical districts are shown on pages 108 and 109.
- 5** *Statistical local areas* are the smallest types of spatial units in the Australian Standard Geographical Classification (ASGC) for which data are shown in this publication. In general, they correspond to LGAs in non-urban areas or suburbs in major urban areas.
- 6** The area in square kilometres of statistical areas is derived from digitised statistical boundaries.
- 7** Data in this publication relate to the period 1991 to 1996–97, over which time there have been five versions of ASGC used. Each data set is presented according to the ASGC version current at the time of collection.
- ASGC Edition 2.1 applies to Retail.
- ASGC Edition 2.4 applies to Manufacturing and Local government.
- ASGC Edition 2.5 applies to Agriculture
- ASGC 1996 Edition applies to Estimated resident population, Births, Deaths, Building, Business locations, Schools, Tourist accommodation and Vehicles on register.

### STATISTICAL AREA CHANGES, QUEENSLAND, EFFECTIVE FROM 1 JULY 1991 TO 30 JUNE 1996

(a) Population changes estimated at 30 June prior to the year of effect. (b) Year ended 30 June. (c) Less than 0.1 square kilometres.

**8** Estimated resident populations shown are based on the 1991 and 1996 Censuses of Population and Housing counts adjusted for under-enumeration, as measured by a post-enumeration survey, plus the estimated number of residents temporarily overseas.

**9** Dwelling counts for the 1996 Census of Population and Housing include occupied private dwellings (including caravans in caravan parks), non-private dwellings (hotels, hospitals, etc.) and unoccupied dwellings.

**10** Figures shown for births and deaths relate to the resident population of the area for which they are shown.

**11** Business locations data are classified according to Australian and New Zealand Standard Industrial Classification (ANZSIC).

**12** Major changes have occurred in the scope and definition of Business Locations data. Care should be taken when comparing 1997 data with that from previous years.

**13** Statistics of building work approved are compiled from: (a) permits issued by local government authorities in areas subject to building control by the relevant authorities and (b) contracts let or day labour work authorised by Commonwealth, State, semi-government and local government authorities. Major building activity which takes place in areas not subject to the normal administrative approval processes (e.g. mining leases) is also included. The number of dwelling units created by alterations and additions to existing buildings, i.e. buildings other than dwellings, is not included.

**14 Location.** A location is a physical unit of an establishment, usually of an unbroken physical area or site.

**15** Data for motor vehicles on register were provided by Queensland Department of Transport.

**16** Motor vehicles data exclude Commonwealth Government owned vehicles.

**17** Where figures have been rounded, discrepancies may occur between totals and sums of the component items.

**18** Australian Standard Geographical Classification spatial unit changes between Edition 2.5 and 1996 Edition, effective from 1 July 1996, are as follows:

**EDITION 2.5 ASGC SPATIAL UNITS**

**1996 EDITION ASGC SPATIAL UNITS**

4904	Maroochy (S) – Pt B	4918	Maroochy (S) Bal.

Six new SLAs were created from Maroochy (S) – Pt A and part of Maroochy (S) – Pt B.  
Maroochy (S) – Pt B renamed to Maroochy (S) Bal. An area of 1,624 ha was transferred to Maroochy (S) – Coastal North.

5751	Noosa (S) – Pt A	5752	Noosa (S) – Noosa-Noosaville
		5755	Noosa (S) – Sunshine Peregian
		5756	Noosa (S) – Tewantin

Noosa (S) – Pt A split into three SLAs.

5754	Noosa (S) – Pt B	5758	Noosa (S) Bal.
------	------------------	------	----------------

Code and name change. Area unchanged.

6200	Redcliffe (C)	6201	Clontarf
		6204	Margate-Woody Point
		6206	Redcliffe-Scarborough
		6208	Rothwell-Kippa-Ring

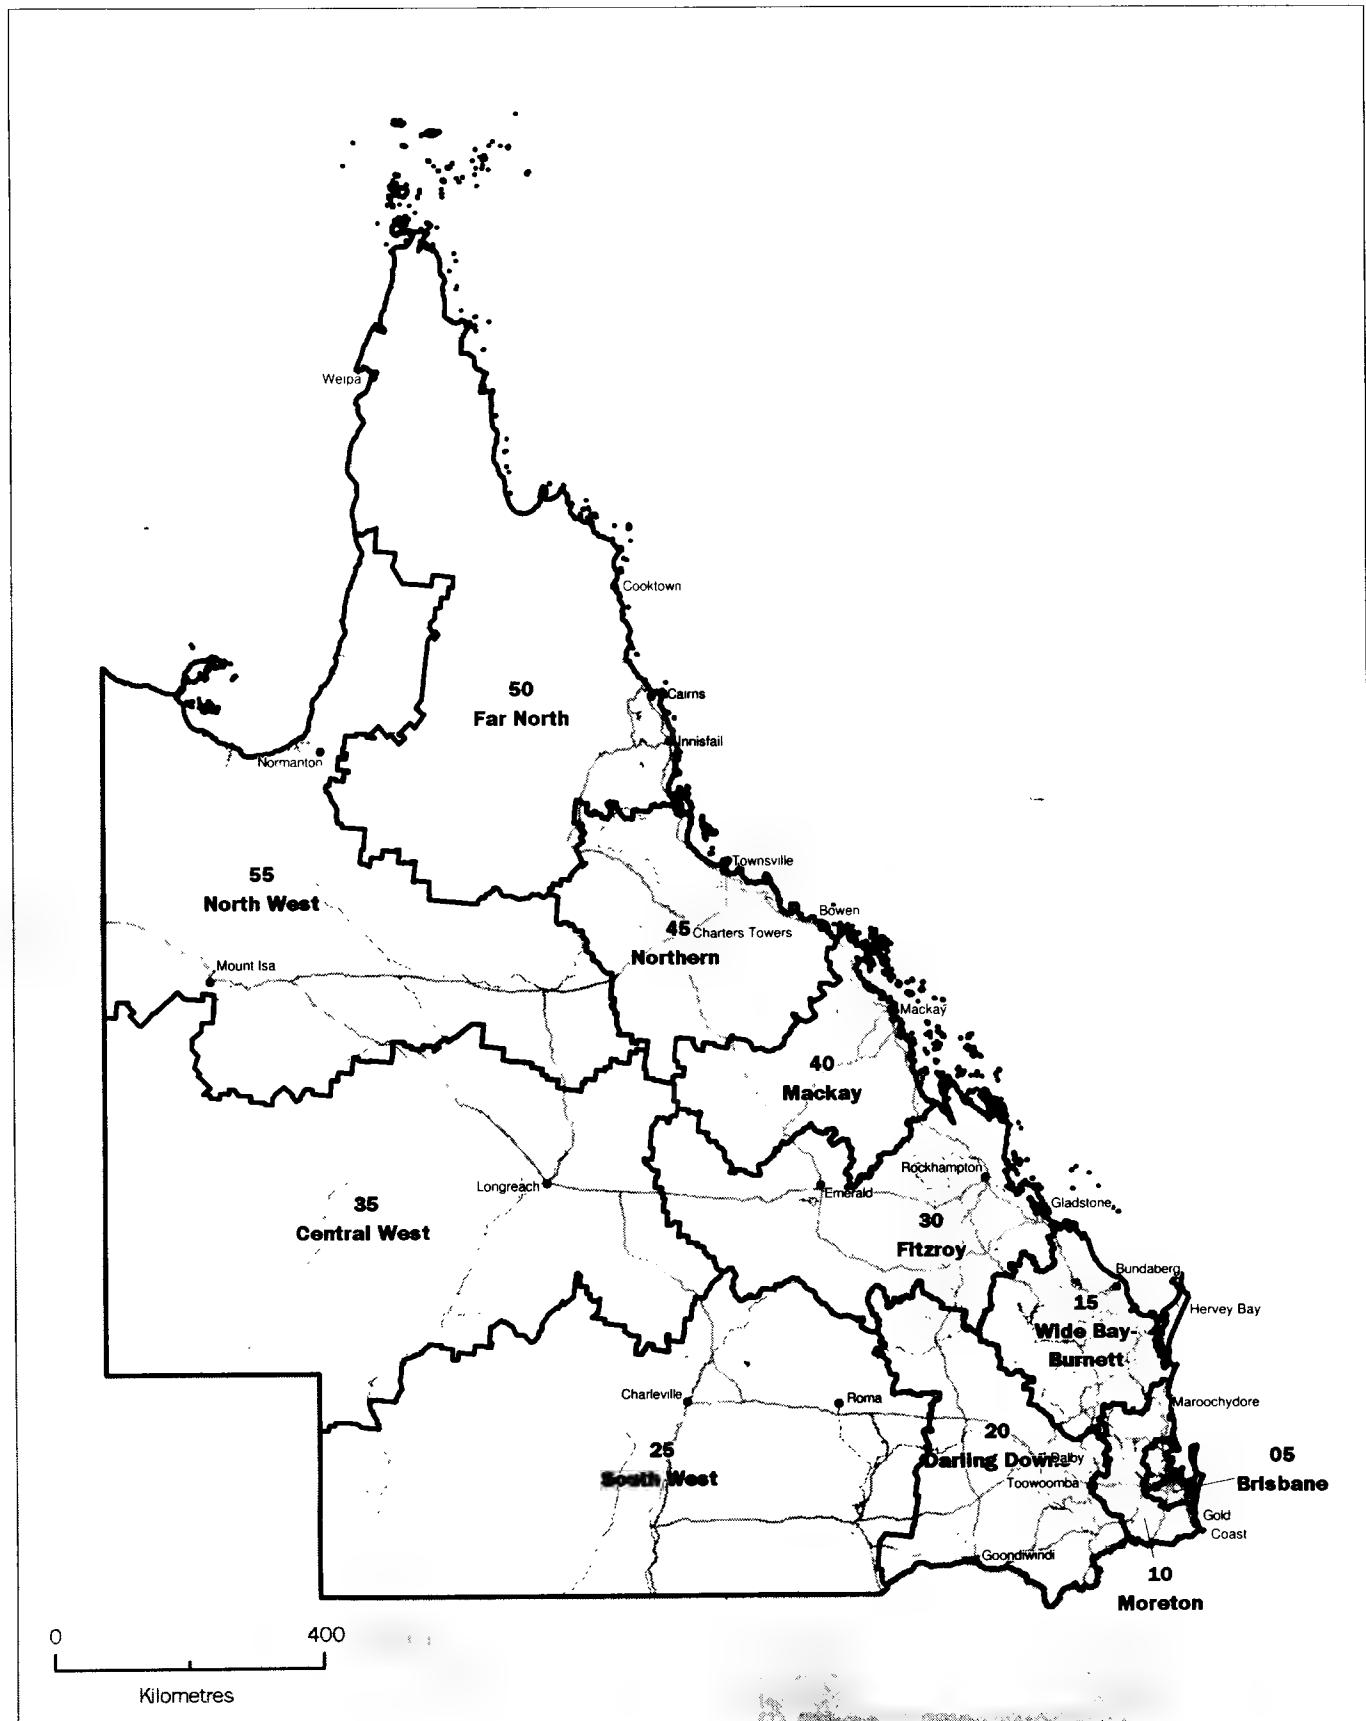

Redcliffe (C) split into four SLAs.

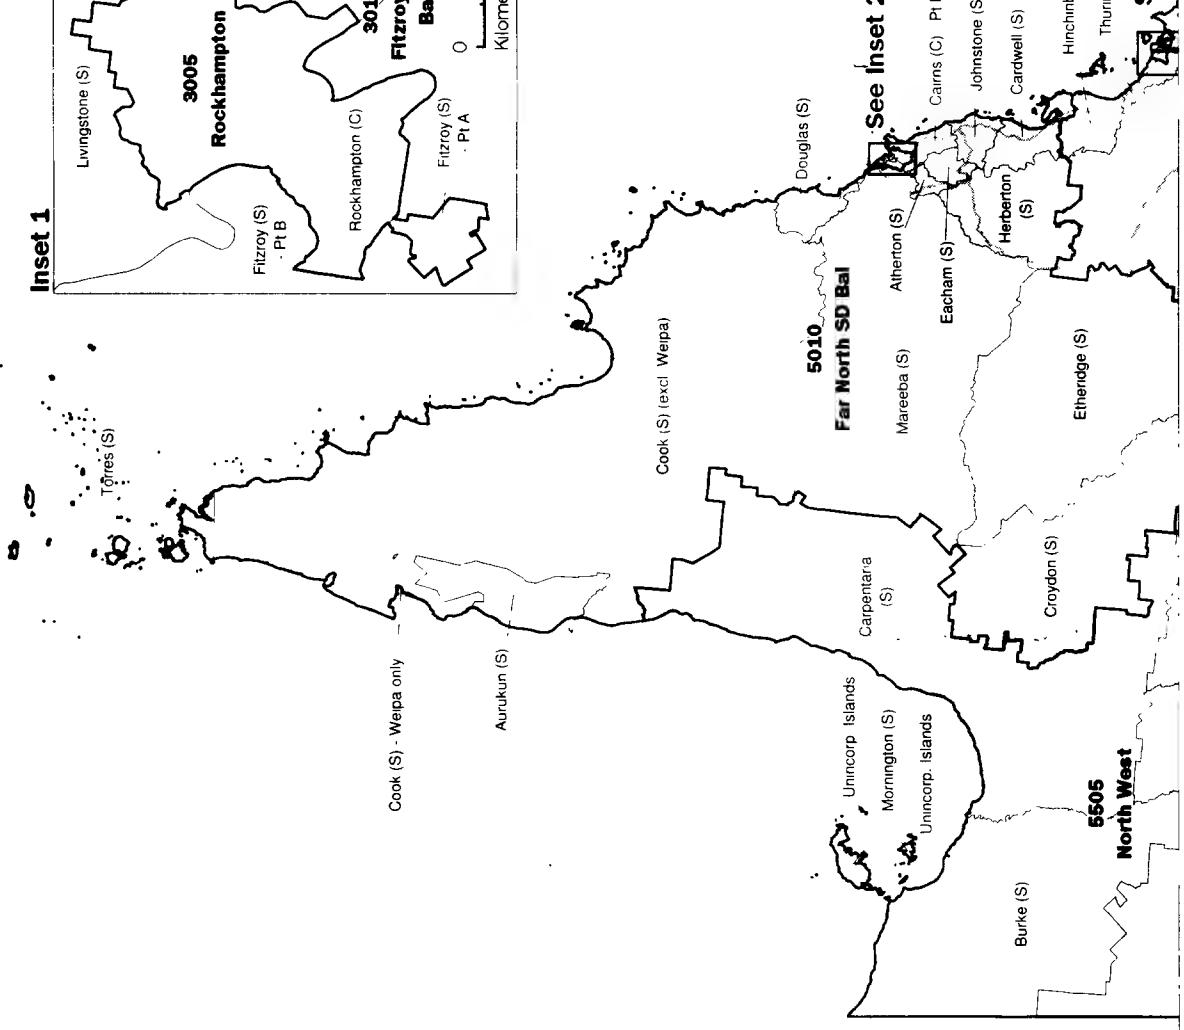

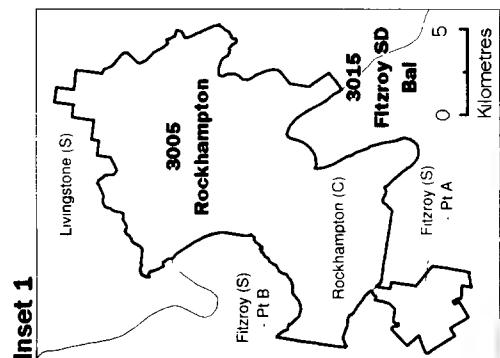

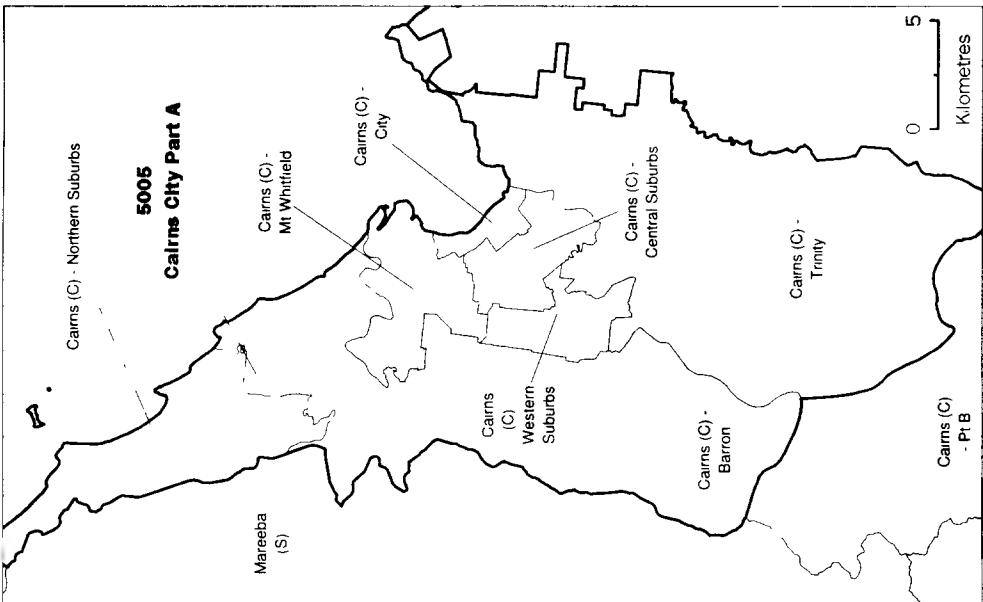

6251	Alexandra Hills	6251	Alexandra Hills
6254	Birkdale	6254	Birkdale
6276	Wellington Point	6276	Wellington Point

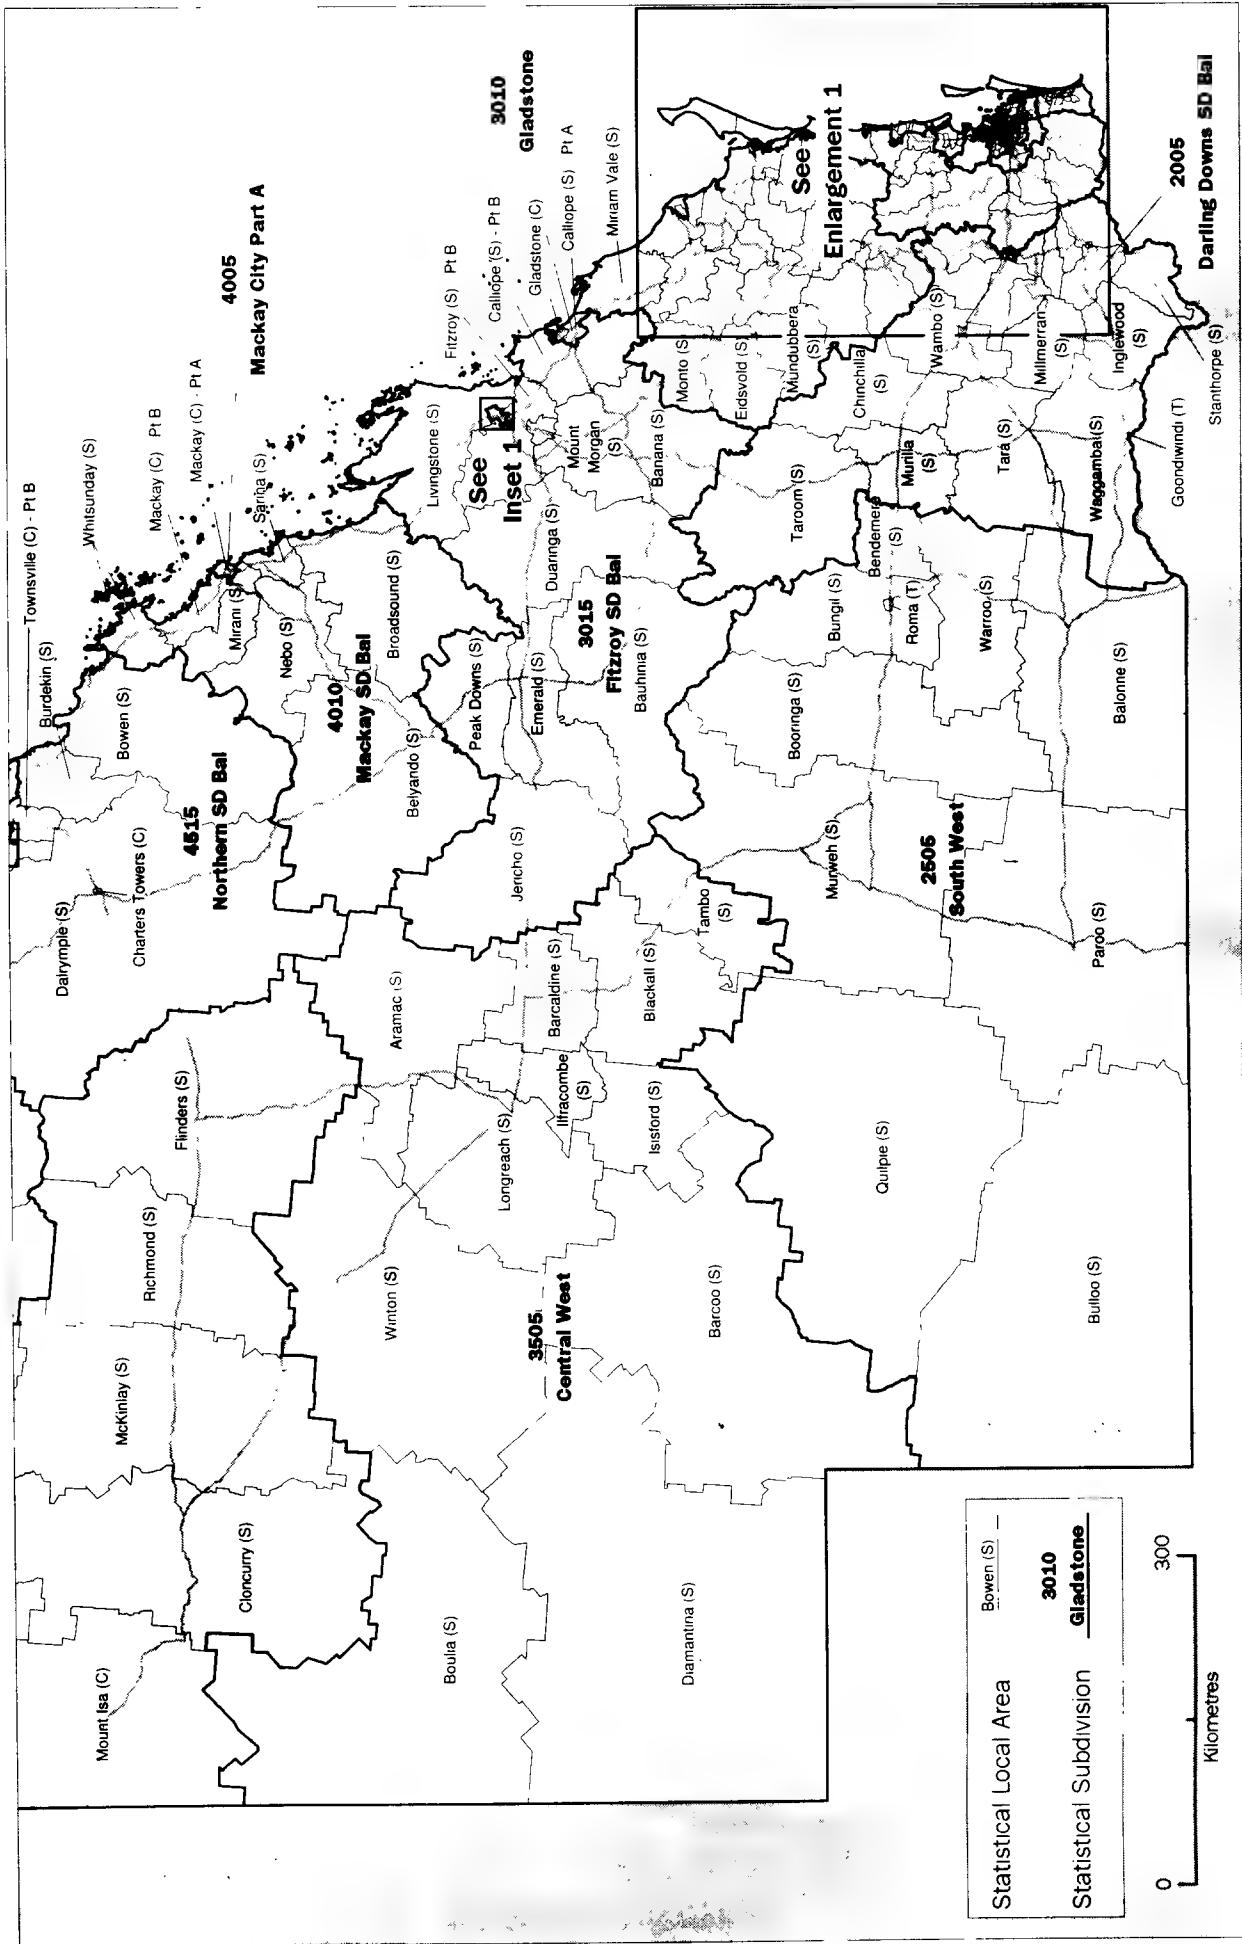

The boundaries of these SLAs in Redland (S) have been redefined.

6900	Toowoomba (C)	6901	Toowoomba (C) – Central
		6903	Toowoomba (C) – North-East
		6905	Toowoomba (C) – North-West
		6906	Toowoomba (C) – South-East
		6908	Toowoomba (C) – West

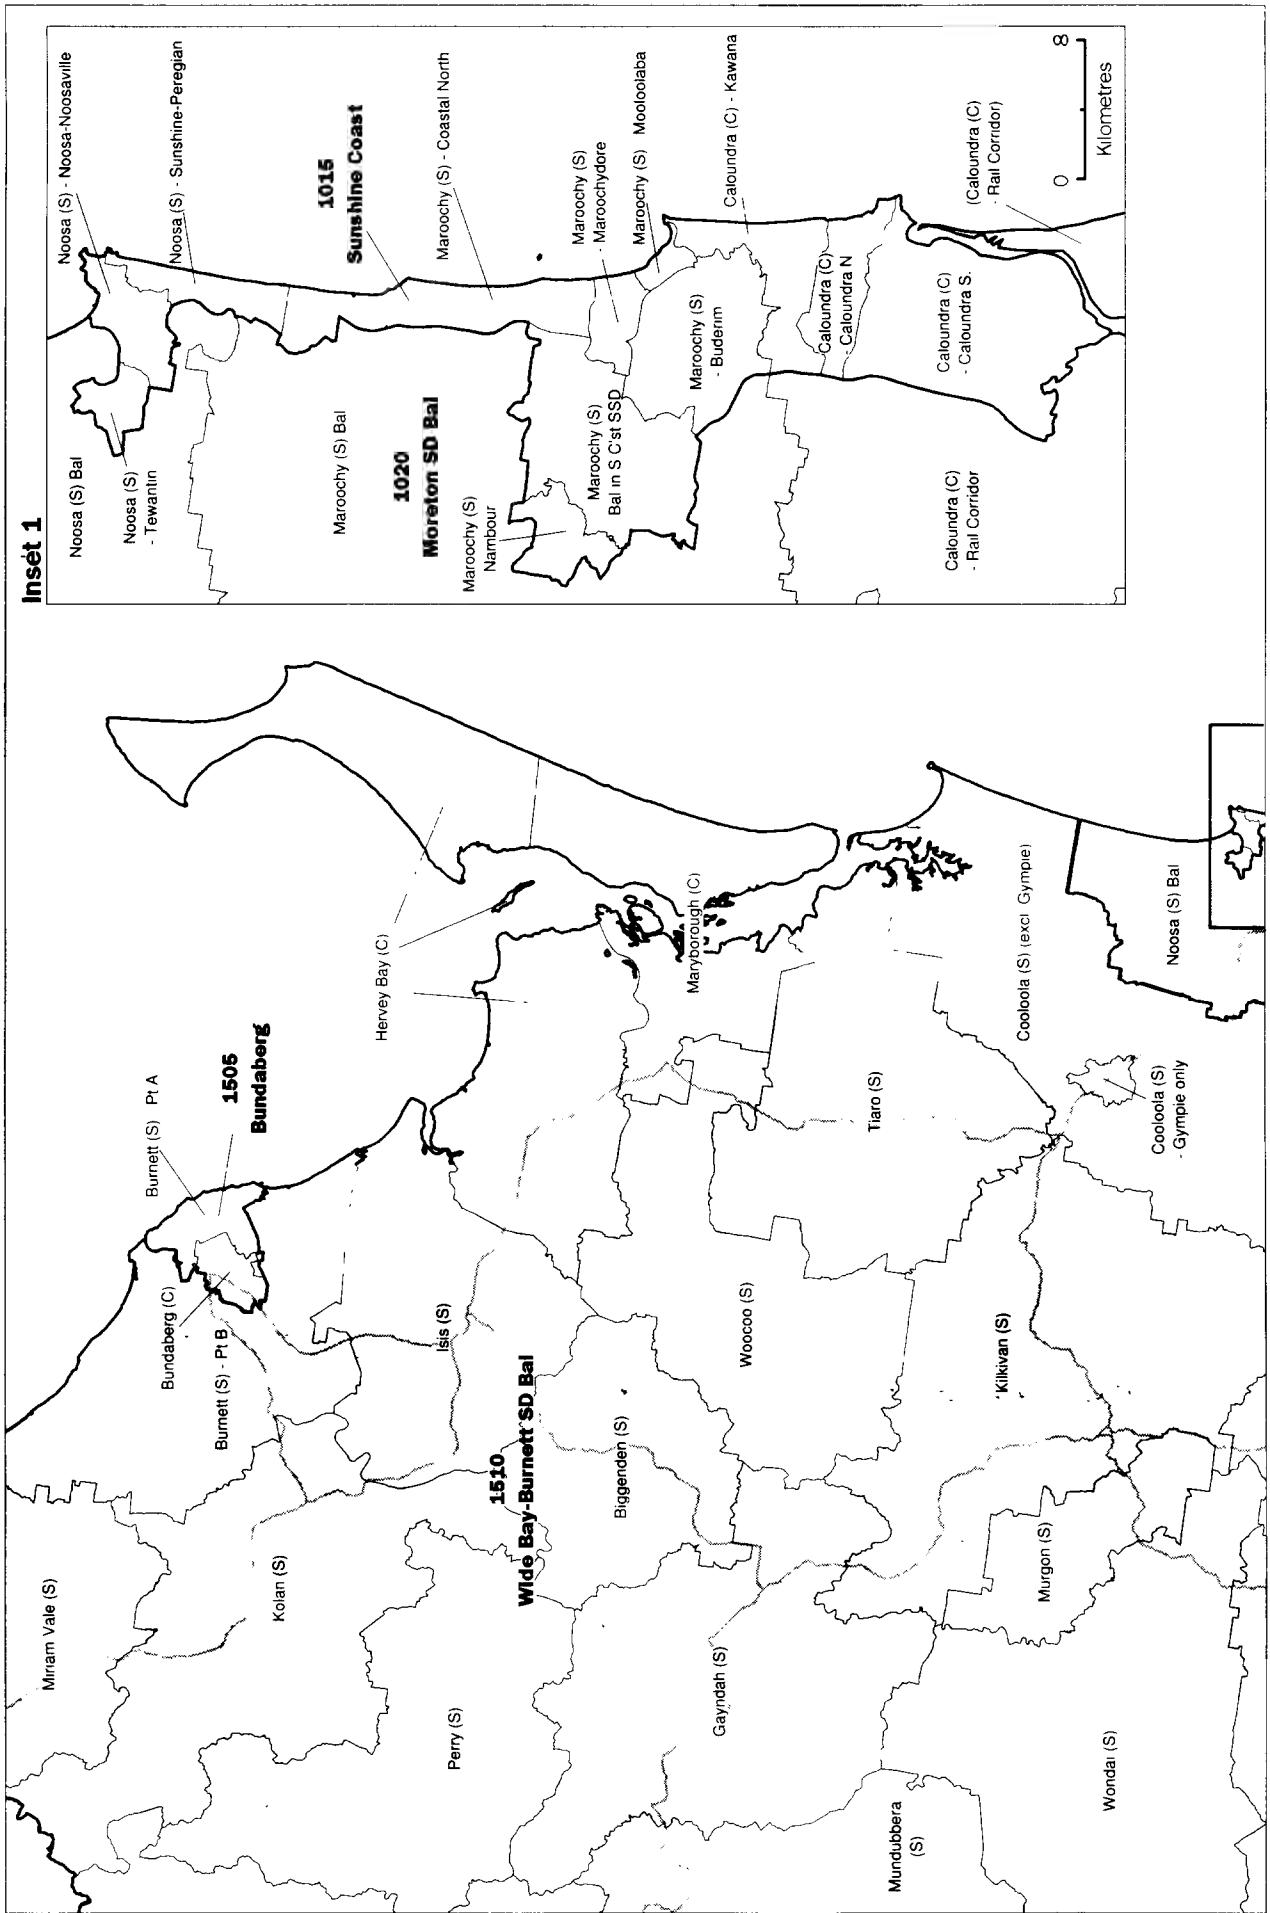

Toowoomba (C) split into five SLAs.

## FOR MORE INFORMATION

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the ABS Catalogue of Publications and Products available from all ABS Offices.

### ABS Products and Services

Many standard products are available from ABS bookshops located in each State and Territory. In addition to these products, information tailored to the needs of clients can be obtained on a wide range of media by contacting your nearest ABS Office. The ABS also provides a Subscription Service for standard products and some tailored information services.

#### National Dial-a-Statistic Line

0055 86 400

Steadycom P/L: premium rate 25c/20 secs.

This number gives 24-hour access, 365 days a year, for a range of important economic statistics including the CPI.

#### Internet

<http://www.abs.gov.au>

A wide range of ABS information is available via the Internet, with basic statistics available for each State, Territory and Australia. We also have Key National Indicators, ABS product release details and other information of general interest.
